

MOHSEN FARID MOHSEN ALSHARAFI

Cyber Security Student | Seeking Internship

Jeddah, Saudi Arabia

+60 1162020336

mohsen110099@gmail.com

SUMMARY

Cyber Security student with a strong interest in network security, Linux environments, and threat analysis. Eager to build hands-on skills through networking practice, Kali Linux, CTF challenges, and introductory SOC exposure. Seeking an internship opportunity to apply academic knowledge, strengthen practical skills, and contribute in a professional team environment.

ACADEMIC PROJECTS

2024 - Present

Academic Projects

Asia Pacific University of Technology & Innovation (APU)

- Built introductory academic projects in web development, database design, and software development using multiple programming languages.
- Designed and simulated basic network topologies in Cisco Packet Tracer to practice routing, switching, and configuration concepts.
- Applied foundational data structures and problem-solving concepts through coursework and programming assignments.

EDUCATION

2024 - 2027

Computer Science (Cybersecurity)

Asia Pacific University of Technology & Innovation (APU)

APU-DMU Dual Degree Programme with De Montfort University (DMU), UK

Expected Graduation: 2027

CERTIFICATIONS

CCNA: Introduction to Networks

Red Hat System Administration I (RH124)

ELITE TecForte SOC Programme

CCNA: Switching, Routing, and Wireless Essentials

Red Hat System Administration II (RH134)

SKILLS

Networking

Linux Fundamentals

CTF Challenges

Web Development Basics

Cisco Packet Tracer

Kali Linux

SOC Concepts

Database Fundamentals

LANGUAGES

Arabic

English
